

To: All Licensed Gas Service Workers

Dear Sirs

GAS SUPPLY CODE

We are pleased to inform you that the Energy Market Authority has issued a code of practice, the Gas Supply Code (“the Code”) on 14 February 2008. The Code is made pursuant to the Gas Act (Cap 116A).

2 The Code sets out the obligations of gas licensees, such as the gas transporter, gas retailers, etc., professional engineers and licensed gas service workers under the new competitive gas industry framework. It governs the safe operations of the gas supply system and safe utilisation of piped natural gas and town gas. The Code also stipulates the technical, safety and procedural requirements for the application, connection, admittance, disconnection and turn-off of gas supply as well as for the alteration and addition of pipe work and inspection of gas fittings in consumer premises.

3 You are required to comply with the Code in carrying out gas service works. The Code can be viewed at the EMA website <http://www.ema.gov.sg>. Please also note that gas installations and fittings operating at pressure of up to 20 kPa shall continue to comply with the Singapore Standard CP 51: 2004 Code of Practice for Manufactured Gas Pipe Installation.

4 If you need clarification, please email EMA_RD_ELISE@ema.gov.sg or contact our officers at telephone numbers 68358142 or 68358106.

Yours faithfully

YEO YEK SENG
DEPUTY CHIEF EXECUTIVE
REGULATION DIVISION
