

Circular No: RD/G01/2016
Date of Issue : 16 Feb 2016

To: All Licensed Gas Service Workers

Dear Sirs

COMPLIANCE WITH SINGAPORE STANDARD SS608 : 2015 CODE OF PRACTICE FOR GAS INSTALLATION

Currently, a licensed gas service worker shall ensure that any gas service work he carries out is in compliance with the Singapore Standard CP51:2004 Code of Practice for Manufactured Gas Pipe Installation.

2 SPRING Singapore has on 3 Dec 2015 published the Singapore Standard SS608:2015 Code of Practice for Gas Installation, which supercedes CP51:2004.

3 To minimize disruption to existing projects and for the industry to adapt to the requirements of SS608:2015, a transition period will be given before SS608:2015 is made mandatory on 1 Jul 2016. During the transition period, you may comply with either CP51:2004 or SS608:2015 for your projects. With effect from 1 Jul 2016, all new gas installations, and replacement of or addition and alteration to existing gas installations shall comply with SS608:2015.

4 Licensed gas service workers are advised to familiarise themselves with the Singapore Standard SS608:2015 which may be purchased from Toppan Leefung Pte Ltd at 1 Kim Seng Promenade, #18-01/06, Great World City, East Tower, Singapore 237994 or online at <http://www.singaporestandardseshop.sg>.

5 For further clarification, please contact our officers at 63767582 or 63767592.

Yours faithfully

YEO YEK SENG
DEPUTY CHIEF EXECUTIVE
REGULATION DIVISION
